2:15 – 2.50 pm

December: trip to Chideock Church

Year 3

Autumn Term

EUROPE

Autumn 2018

English

This term the children will be studying a range of high quality texts linked to the two themes for this term. We will look at Stone Age Boy (Satoshi Kitamura) and Stig of the Dump (Clive King). After half term we will be using Roald Dahl's memories of childhood book – Boy. Our creative writing will follow these themes, whilst we will continue to make a concerted focus on attention to the essentials of spelling, punctuation and grammar.,

RE

RE teaching follows the Catholic/Christian ethos and values broadly in line with the church liturgical year. Children learn about religious stories and make links between beliefs and actions. They compare their own and other people's ideas and questions that are difficult to answer. They will also learn about other world religions. We will be visiting Chideock church in December to make Christingles.

Maths

In Maths this term we will be looking at the number system. We will learn to partition 2 and 3 digit numbers. We will practice ordering numbers, adding and subtracting 10 to any number. Children will be expected to know their 10x, 2x, 5x and 3x tables. We will also begin to add and subtract numbers using a written method. We will also look at fractions of shapes and numbers, as well as shape, measure and data handling.

Humanities

At the beginning of the term the children will be learning all about the different challenges for survival of Early Man and how tools and homes and food changed during the Stone Age, Bronze Age and Iron Age. During the second half of the term they will learn about the major countries and capital cities in Europe and focus in on a mini study of Norway.

Art/DT

This term we will be learning how Stone Age people made paint and cave art.

We will also be tie dying fabrics to represent baptism.

French

As our introduction to French in KS2, we will be learning our numbers to 20 and greetings. We will also learn to introduce ourselves and begin a conversation.

Science

Our two topics this term will be: Rocks and soils and Light and Shadows

Music

We will be learning to: Sing and respond to a variety of topic related songs through all our musical activities to highlight the importance of a regular beat in music. Children will use instruments or their own voices to produce layers of sound.

PE

We will be developing our ball skills in a variety of activities. We will also be learning some principles and positions of yoga.

Computing.

In computing we will be doing some simple programming, using Lightbot Jr. We will also continue to develop the children's understanding of internet safety

Seal

We will begin our year by creating our Class Charter and we will have weekly circle time sessions where we will focus on developing confidence, team work and listening skills.
